Jalandhar, Punjab

Summary

I am a seasoned front-end software developer with over two years of proven expertise in crafting exceptional web and app experiences. Specializing in JavaScript and its associated libraries and frameworks, including React.js, Next.js, and React Native, I bring a wealth of knowledge to every project. Additionally, my proficiency in leveraging design tools like Figma ensures seamless integration of design and development processes. Let's collaborate to transform your vision into a captivating digital reality.

Experience

Front-End Developer

Delta4 Infotech Pvt Ltd • Mohali, Punjab

07/2022 - Present

- Spearheaded the development of three innovative products: Lets QA, YourGPT Chatbot, and LLM Spark from inception to launch as a key member of the founding team.
- Utilized cutting-edge technologies including React, Redux, NextUI, TailwindCss, and Socket.io to build scalable and efficient solutions.
- Led the creation of Lets QA, an anonymous Q&A and battle platform, enhancing user engagement through anonymity and social interaction.
- Developed YourGPT Chatbot, an AI-powered customer support tool, implementing multi-language support and human-like interactions for businesses of all sizes.
- Architected LLM Spark, a development platform for building production-ready LLM apps, featuring multi-LLM prompt testing, semantic search, team collaboration, and a template directory.
- Collaborated within cross-functional teams, following Scrum methodologies, to ensure efficient development processes and alignment with project goals.

Front-End Developer

Skyrockets • Mohali, Punjab

02/2022 - 07/2022

- Played a pivotal role in developing ExploreTalent, the leading Hollywood casting platform with over 15 million talents, using Next.js, Styled Components, TailwindCss, and Socket.io to enhance user experience.
 - Designed and implemented responsive UIs and integrated real-time communication features, significantly improving user engagement and platform performance.
 - Fostered collaboration with cross-functional teams using Scrum methodologies to ensure the delivery of high-quality, tailored solutions that met user needs and business goals.
-
